

小鼠抗 HA tag 单克隆抗体

- 中文名称: 小鼠抗 HA tag 单克隆抗体
- 英文名称: Anti-HA tag mouse monoclonal antibody
- 别名: Human influenza hemagglutinin Tag; HA epitope tag; Hemagglutinin Tag
- 相关类别: 标签抗体
- 储存: 冷冻 (-20℃)
- 宿主: Mouse
- 抗原: HA tag
- 反应种属: Fusion proteins containing the HA Tag
- 标记物: Unconjugate
- 克隆类型: mouse monoclonal

技术规格

| | |
|--------------------------|---|
| Background: | Human influenza hemagglutinin (HA) is a surface glyco protein required for the infectivity of the human virus. The HA tag is derived from the HA-molecule corresponding to amino acids 98-106 has been extensively used as a general epitope tag in expression vectors. Many recombinant proteins have been engineered to express the HA tag, which does not appear to interfere with the bioactivity or the biodistribution of the recombinant protein. This tag facilitates the detection, isolation, and purification of the proteins. |
| Applications: | WB |
| Name of antibody: | HA tag |
| Immunogen: | Synthetic peptide conjugated with KLH |

| | |
|---------------------------------|---------------------------------------|
| Full name: | Human influenza hemagglutinin Tag |
| Synonyms: | HA epitope tag, Hemagglutinin Tag |
| WB Predicted band size: | 55 kDa |
| WB Positive control: | Fusion proteins containing the HA Tag |
| WB Recommended dilution: | 10000-50000 |
