

兔抗 MSN 多克隆抗体

中文名称: 兔抗 MSN 多克隆抗体

英文名称: Anti-MSN rabbit polyclonal antibody

储存: 冷冻 (-20℃)

抗原: MSN

宿主: Rabbit

相关类别: 一抗

反应种属: Human, Mouse, Rat

标记物: Unconjugate

克隆类型: rabbit polyclonal

技术规格

| | |
|------------------------------------|---|
| Background: | Moesin (for membrane-organizing extension spike protein) is a member of the ERM family which includes ezrin and radixin. ERM proteins appear to function as cross-linkers between plasma membranes and actin-based cytoskeletons. Moesin is localized to filopodia and other membranous protrusions that are important for cell-cell recognition and signaling and for cell movement. Probably involved in connections of major cytoskeletal structures to the plasma membrane. May inhibit herpes simplex virus 1 infection at an early stage. |
| Applications: | ELISA, WB, IHC |
| Name of antibody: | MSN |
| Immunogen: | Fusion protein of human MSN |
| Full name: | moesin |
| SwissProt: | P26038 |
| ELISA Recommended dilution: | 2000-5000 |

| | |
|---------------------------------|---|
| IHC positive control: | Human thyroid cancer and Human ovarian cancer |
| IHC Recommend dilution: | 50-200 |
| WB Predicted band size: | 68 kDa |
| WB Positive control: | 293T and A431 cells |
| WB Recommended dilution: | 500-2000 |
