

兔抗 NBEA 多克隆抗体

中文名称:	兔抗 NBEA 多克隆抗体
英文名称:	Anti-NBEA rabbit polyclonal antibody
别名:	BCL8B, LYST2
相关类别:	一抗
储存:	冷冻 (-20℃)
宿主:	Rabbit
抗原:	NBEA
反应种属:	Human, Mouse
标记物:	Unconjugate
克隆类型:	rabbit polyclonal

技术规格

Background:	This gene encodes a member of a large, diverse group of A-kinase anchor proteins that target the activity of protein kinase A to specific subcellular sites by binding to its type II regulatory subunits. Brain-specific expression and coat protein-like membrane recruitment of a highly similar protein in mouse suggest an involvement in neuronal post-Golgi membrane traffic. Mutations in this gene may be associated with a form of autism. This gene and its expression are frequently disrupted in patients with multiple myeloma. Alternative splicing results in multiple transcript variants encoding distinct isoforms. Additional transcript variants may exist, but their full-length nature has not been determined.
Applications:	ELISA, IHC

Name of antibody:	NBEA
Immunogen:	Synthetic peptide of human NBEA
Full name:	neurobeachin
Synonyms :	BCL8B, LYST2
SwissProt:	Q8NFP9
ELISA Recommended dilution:	1000-5000
IHC positive control:	Human ovarian cancer and Human cervical cancer
IHC Recommend dilution:	25-100
