

兔抗 SNX9 多克隆抗体

- 中文名称：兔抗 SNX9 多克隆抗体
- 英文名称：Anti-SNX9 rabbit polyclonal antibody
- 别名：SNX9; MST155; MSTP155; SDP1; SH3PX1; SH3PXD3A; WISP
- 相关类别：一抗
- 储存：冷冻（-20℃）避光
- 宿主：Rabbit
- 抗原：SNX9
- 反应种属：Human, Mouse, Rat
- 标记物：Unconjugate
- 克隆类型：rabbit polyclonal

技术规格

Background:

This gene encodes a member of the sorting nexin family. Members of this family contain a phosphoinositide binding domain (PX), which is a phosphoinositide binding domain, and are involved in intracellular trafficking. This protein does not contain a coiled coil region, like some family members, but does contain a SH3 domain near its N-terminus. This protein interacts with the cytoplasmic domains of the precursor but not the processed forms of a disintegrin and metalloprotease domain 9 and 15. This protein binds the beta-appendag

	e domain of adaptor protein 2 and may function to assist adaptor protein 2 in its role at the plasma membrane. This protein interacts with a ctivated Cdc42-associated kinase-2 to regulate the degradation of epidermal growth factor receptor protein.
Applications:	WB
Name of antibody:	SNX9
Immunogen:	Fusion protein of human SNX9
Full name:	sorting nexin 9
Synonyms :	SNX9; MST155; MSTP155; SDP1; SH3PX1; SH3PX3A; WISP
SwissProt:	Q9Y5X1
WB Predicted band size:	67 kDa
WB Positive control:	HeLa cells
WB Recommended dilution:	500-2000
